**"Quality UK manufactured PDU's to EU standards"**

Basic PDU with sequential on/off for each 2 ways a group

Manufactured to BS5733, with UL, CSA & VDE approved components.

Each way with protected(Front)

Earth bonded for total safety, compliant with RoHS certification.

Current rating 13A operating voltage 250V Ac.

Current-voltage-energy meter

Sequential Start On/Off.

IEC 320 Lockable Sockets.

Individually Fused.  
Horizontal mounting.

Set in black powder coated in mild steel metal work.

Green illuminated neon indicator.

Red master control switch(when the switch is turned on, sequential on/off for each 2 ways a group)

Externally wired to Standard 3 meter 3 core 1.5mm cable to 13 Amp Connector.

**10 Way Horizontal individually fused**

***Power Distribution Unit***

**Order reference  
KWB-10C3SQM**

Dimensions L x W x D =  
482 mm x 202 mm x 44.45 mm

**Mounting Length = 465 mm**
